

Campus Report Card

Summit Mesa Prep | SCS-002 | Report Year 2025-2026

This report summarizes current public accountability indicators for a fictional Summit Charter Schools campus. It is designed for training use and contains synthetic data only.

B

Overall Letter Grade

Accountability rating

518

Total Enrollment

Current reported count

21.5%

Chronic Absenteeism

Watch threshold: 20%

Campus ID	SCS-002	Region	East Valley
Campus Name	Summit Mesa Prep	City	Mesa
Grade Band	9-12	Report Year	2025-2026
Monitoring Status	Elevated Support	Current Focus	Academics are solid, but chronic absenteeism crossed a

Snapshot Interpretation

Academics are solid, but chronic absenteeism crossed above 20% and continues rising.

This snapshot is intended to support regional review, dashboard comparison, and Monday briefing preparation. It should be read alongside the internal weekly trend file for recent movement.

Academic Performance Summary

The table below contains the current academic indicators used for network-level comparison. This is the primary source page for extracting math proficiency, ELA proficiency, overall letter grade, and graduation-rate applicability.

Indicator	Current Result	Network Reference	Interpretation
Overall Letter Grade	B	C or higher	Accountability rating for current report year.
Math Proficiency %	54%	45% network median	Current synthetic math proficiency indicator.
ELA Proficiency %	57%	48% network median	Current synthetic ELA proficiency indicator.
Graduation Rate	86%	Applies to high school campus	Current synthetic graduation indicator.

Academic Notes

Math proficiency is reported at 54%. ELA proficiency is reported at 57%. These values represent current synthetic public accountability indicators for Summit Mesa Prep in the 2025-2026 report year.

Graduation rate is reported at 86% for this high school campus.

Area	Current Standing	Recommended Monitoring
Math	54% proficiency	Monitor short-cycle assessment results and intervention participation.
ELA	57% proficiency	Monitor grade-level variation and instructional support needs.
Overall	Letter grade B	Use with attendance indicators to determine follow-up priority.

Attendance and Enrollment Indicators

Attendance and enrollment indicators help distinguish academic risk from operational risk. The chronic absenteeism value below is the primary source for attendance extraction.

Indicator	Current Result	Attention Band	Operational Note
Total Enrollment	518	Current reported count	Use with weekly trends to identify stability or movement.
Chronic Absenteeism %	21.5%	Watch threshold: 20%	Use for Monday briefing risk flags and attendance follow-up.
Attendance Risk Status	Elevated Support	Regional review	High school campus; include graduation rate. Attendance section

Operational Interpretation

Chronic absenteeism is currently 21.5%. The campus monitoring status is Elevated Support. Regional directors should interpret this value alongside the four-week internal trend data.

Four-Week Internal Trend Context	Summary
Enrollment	520 to 518 students.
Math Proficiency	55% to 54%.
ELA Proficiency	58% to 57%.
Chronic Absenteeism	18.3% to 21.5%.

Grade-Band-Specific Measures

Different accountability measures apply to different grade bands. Summit Mesa Prep serves 9-12, so the applicable measures below should guide extraction and dashboard interpretation.

Measure	Applies To This Campus	Result Or Status	Notes
Math Proficiency	Yes	54%	Included in the academic performance summary.
ELA Proficiency	Yes	57%	Included in the academic performance summary.
High School Graduation Rate	Yes	86%	Reported for graduating cohort.
College-Ready Indicator	Yes	Monitored	Reserved for high school accountability reporting.
Chronic Absenteeism	Yes	21.5%	Included in attendance and enrollment indicators.

Use For Regional Review

High school campus; include graduation rate. Attendance section should make the absenteeism risk clear.

For dashboard and briefing work, do not convert Not Applicable values to zero. Preserve the distinction so regional comparisons remain accurate.

Methodology and Synthetic Data Disclosure

This report is part of a fictional training scenario for AI Challenge Week 2. It is designed to simulate the kinds of public accountability documents that operations teams often need to collect, read, and convert into structured working files.

Synthetic Data Notice

All names, campuses, identifiers, student counts, performance metrics, attendance indicators, and notes in this report are fictional and synthetic. Summit Charter Schools is a fictional organization. No real student, staff, campus, or operational data is represented.

How Values Are Reported

Data Element	Reporting Method
Enrollment	Reported as a current synthetic student count for the report year.
Letter Grade	Reported as a fictional accountability indicator for training use.
Math and ELA Proficiency	Reported as percentages to support extraction, dashboarding, and briefing exercises.
Graduation Rate	Reported only for campuses serving a high school graduating cohort; otherwise Not Applicable.
Chronic Absenteeism	Reported as the percentage of students meeting the synthetic chronic absenteeism definition.

Intended Training Use

The intended use of this report is to practice collecting public-style PDFs, extracting specific fields with source-page citations, building a campus performance spreadsheet, and using the resulting data to create a dashboard and Monday regional briefings.
